A ROUND-HOUSE for the K. C. has been staked off between the junction of the main line and the Maysville branch, near our passenger depot. ON May 13th, a colored boy named Theodore Grimes, aged sixteen years, was missing from his home in Lexington, and it was thought that he had followed off a stable of racers on a Western circuit. On Thursday, however, this impression was found to be erroneous, as some boys while hunting wild plums on R. S. Henderson's place near town, found his skeleton hanged with a rope, where he is thought to have suicided on account of anger to his parents. The remains were identified by the clothing and rope.

Our Coming County Fair.

The 47th annual fair of the Bourbon County Agricultural Society will be held here next week, commencing Tuesday morning, and continuing during the week. Ample arrangements have been made for the entertainment of a larger number of guests than ever heretofore attended this fair of fairs, and it is ardently hoped that the association will not be disappointed in the least. The premium list is large and attractive, and the trouts arranged for each day will be a new and popular feature of the programme. The track is a splendid half mile one, and the grand stand will compare favorably with any in the State. Everybody who can, should not fail to attend the old Bourbon Fair established on a new basis.

—Thos. Costello, the popular salesman for the large wholesale millinery houses of Griffith Bros., at Indianapolis, Ind., and Dayton, Ohio, was in our city yesterday. In looking over his large and elegant line of samples, we were lost in admiration at many of the new and handsome fall styles in straw goods—in fact, the finest we've ever before noticed, and we fancy we've ever before of several years in the business, we know whereof we speak. From the two large trunkfuls of feathers of all shades and shapes, we were constrained to remark that the coming season will be a "feather" one. As usual, our toniest milliners who use none but the very best goods, sent Tom away with a face wreathed in smiles, over several large orders given him.

Regarding the injury of Leonatus, he has strained the outer tendon of the right foreleg, which can readily be seen by the eye or felt with the hand. The injury is not so serious as was first supposed. The enlargement of the seat of the injury is chiefly from effusion of serum, and with rest and cold applications by means of bandages or otherwise will, in the course of two or three months, effect a cure. Generally, however, in such cases it will take six or eight months before the tendon recovers its tone, and in a valuable horse like Leonatus no attempt should be made to work him before that time. It is the intention of his owners to let him lie over until next spring before they will attempt to put him in training. They will give the colt ample time to recover from his injury, for he was one of the best and most wonderful three-year-olds that has ever appeared upon the American turf.
